

TILLY GREENE PRESS KIT

Tilly Greene was born into the easy folds of a sleepy beach town and embraces the laid back mindset she grew up with. Later, she settled into a polar opposite lifestyle from the one she'd been living by moving abroad to further her education. Despite the frigid climate, the fast pace existence melded in, making her a person who is adaptable and enjoys experiencing the diversity surrounding her.

While traveling around the world with her husband, she researches and writes erotica and erotic romances. Every day she looks forward to writing about women who are independent and confident, the men who love them, and their twisting passionate path to each other.

The versatile author writes romance single titles and series in a variety of sub-genres and themes [Contemporary, Futuristic, Shape Shifting, Paranormal, some with BDSM and Ménages, and a few Multicultural/Interracial]. Within the plot, she often likes to add into the mix interesting subjects like sexual equality and ethics. [Come, Sweet Creature](#) was her first book written, sold, and went on to be a #1 bestseller for three consecutive months at her publishing house and for one month at Fictionwise.
